OTHMAN GEURRAR
FULL-STACK DEVLLOPER

As a passionate Full Stack Web Developer, I excel in JavaScript, with proficiency in React, Node.js, Express, and MongoDB. Skilled in both front-end and back-end development, I focus on creating seamless, efficient web applications. My drive for continuous learning and innovation fuels my ability to tackle complex challenges and deliver solutions that enhance user experiences.

SKILLS

Front-End : HTML, CSS, JavaScript, React, Bootstrap, Material UI

Back-End : Node.js, Express, MongoDB, RESTful APIs

BASES DE DONNÉES : MONGODB, SQL

Gestion de versions : Git, GitHub

QUALITIES

Quick to Adapt to new technologies

Collaborative Team Player

Self-Learner

Effective Communicator

LANGUAGES

ENGLISH : Fluent

FRENCH : Intermediate

ARABIC : Native

EXPERIENCE

DÉVELOPPEUR WEB FULL STACK - STAGE
ARK-X TALENT FACTORY - CASABLANCA
January 2024 -Présent

FRONT-END DEVELOPMENT:

Focus on crafting and developing the User Interface **(UI)** with **React.js**, integrating designs and prototypes provided by design teams. This process involves a meticulous approach to ensure that the navigation feels intuitive and the overall user experience **(UX)** on the website or application is fluid and engaging.

BACK-END DEVELOPMENT:

Setting Up Servers and **API**s: **Utilize Node.js** and **Express.js** to **establish** robust servers and develop APIs that act as intermediaries, **facilitating** communication between the front-end and the database. Which is crucial for **processing** requests and delivering responses in a secure and efficient manner.

DATABASE MANAGEMENT:

- Database Design: **Establishing** and revising database architectures that efficiently support and scale with the application's needs.
- Query Optimization: **Writing** and **refining** queries to enhance their performance, **ensuring** fast and reliable access to data. This involves **analyzing** query patterns and optimizing data indexes to reduce retrieval times and system load.
- Data Manipulation: **Implementing** advanced techniques for data insertion, updates, deletions, and retrieval, **allowing** for complex data operations tailored to the user's needs and application requirements.

EDUCATION

MERN Full-Stack : JobInTech

Ark-X-Talent Factory : Certified Training — January 2024

Bachelor in computer science, electronics and automation

University Soultane Moulay sliman BeniMellal — 2022 - 2023

DEUST electrical engineering - mechanical engineering

University Soultane Moulay sliman BeniMellal — 2019 - 2021

Bachelor of Electrical Science

Leecy Technique Mohammedia — 2017 - 2018

CERTIFICATE

codecademy

- JavaScript
- Node js
- Express js
- ReactJs
- MongoDb
- Html & Css
